

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Beck, Arne L.		POSITION TITLE Research and Development Director	
eRA COMMONS USER NAME			
EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)			
INSTITUTION AND LOCATION	DEGREE (if applicable)	YEAR(s)	FIELD OF STUDY
San Diego State University	BA	1977	Psychology
San Diego State University		1979	Organizational Psychology
University of California, San Francisco	PhD	1985	Health Psychology

A. Positions and Honors.

- 1978-1979 Psychologist (civilian employee), Naval Health Research Center, San Diego, California
- 1980-1983 Trainee and Research Assistant, Adolescent Medicine Unit, University of California, San Francisco
- 1982-1983 Research Assistant, Children's Renal Center, University of California, San Francisco
- 1983-1984 Research Associate, Department of Pediatrics, University of California, San Francisco
Research Assistant, School of Medicine, Stanford University
- 1985-1988 Director of Research, Department of Pediatrics, Saint Francis Hospital and Medical Center, Hartford, Connecticut; Assistant Professor, Department of Pediatrics, University of Connecticut School of Medicine, Farmington, CT
- 1988-1991 Researcher IV, Program Evaluation & Planning Dept., Fort Logan Mental Health Center, Denver, CO
- 1997-1998 Co-Investigator on development of HEDIS health plan performance measure for antidepressant medication management
- 1998-present Associate Director, Kaiser Permanente National Depression Initiative
- 1991-present Research & Development Director, Kaiser Permanente, Colorado Region, Associate Clinical Professor, Department of Preventive Medicine and Biometrics, University of Colorado Health Sciences Center (UCHSC)
- 2002-present Associate Professor Adjunct, Health and Behavioral Science Doctoral Program, University of Colorado at Denver

200-0443 Coleman (PI) 10/01/00-9/30/02
Hartford Foundation
Improving Care Transitions for Older Adults in HMOs
The major goals of this project are to test the effectiveness of an intervention to improve care transitions from acute to postacute care settings for older adults.
Role: Consultant

Task Order 0953-021 Beck (PI) 3/30/99-3/30/01
Centers for Disease Control and Prevention
Assessing the Effectiveness of an Arthritis Self-Help Class for Patients with Arthritis in a Managed Care Setting
The major goals of this project are to assess the effectiveness of an arthritis self-help class on arthritis patients' symptoms, functional status, and health services utilization within a managed care setting.
Role: PI

Beck (PI) 2/26/98-4/30/00
Kaiser Permanente Garfield Memorial Fund
An Evaluation of the Effectiveness of an Integrated Care Model for the Treatment of Anxiety and Depressive Disorders in a Primary Care Setting
The major goals of this project are to evaluate the impact of psychologists working in a primary care setting on outcomes (symptom remission use of health care services) for patients with depression or anxiety.
Role: PI

Kessler (PI) 7/01/98-2/01/00
John D. And Catherine T. MacArthur Foundation
Proposal for an Initiative on Depression and Workplace Performance (pilot study)
The major goals of this project are to determine the prevalence of depression in the workplace, its impact performance, and assess the effectiveness of treatment for employees with depression.
Role: Site Investigator

101-9716 Price (PI) 2/01/02-5/30/04
Kaiser Permanente Garfield Memorial Fund
Screening and Treatment of Depression and Anxiety in Patients with Congestive Heart Failure
The major goal of this project is to assess the effectiveness of nurse telehealth in improving depression and anxiety symptoms and CHF-related outcomes in CHF patients.
Role: Co-Principal Investigator

Beck (PI) 9/01/02-6/01/04
Pfizer unrestricted educational grant
Is Guidelines Concordant Depression Care Associated with Improved Work Performance and Employer Cost Savings?
The major goal of this project is to determine whether depression care that meets HEDIS performance standards (antidepressant continuation, optimal provider contacts in acute treatment phase) is associated with improved work performance and cost savings to employers.
Role: PI
